Dear Mr. Kellogg,

The California Parks Hospitality Association is a trade organization consisting of companies and individuals who provide hospitality services within the California State Park System. Many of our operations are located on or near lakes and reservoirs where fishing is a major attraction.

We are writing to express our opposition to the proposed fish stocking regulations which will be considered by your Commission in the near future. These regulations will surely result in additional costs to contractors who provide services at lakes and reservoirs. These added costs will need to be passed on to visitors in order for these small businesses to survive.

We urge the Commission to carefully consider the impact the proposed regulations will have on the millions of visitors to these recreation areas and on the businesses which rely on visitation.

Sincerely,

Jack Harrison
Executive Director
